

PolyMem®

Shapes®

SportsWrap®

Nursicare®

This sheet is provided in response to a request for safety information about PolyMem, PolyMem® Silver, or other dressings manufactured by Ferris Mfg. Corp. Ferris follows the requirements of REACH, OSHA, ISO Standards, and CA Prop 65.

SDS

Ferris has reviewed relevant regulations (such as OSHA, 29 CFR 1910.1200 and EU CLP Regulation) and properties of PolyMem products. A Safety Data Sheet (SDS) is not required and is discouraged. PolyMem products pose no health hazard or physical hazard. In addition, the products are manufactured articles, not chemicals.

PATIENTS

PolyMem dressings are safe to use for care of patients. PolyMem dressings release no hazardous chemicals. PolyMem dressings have been tested and comply with the material biosafety requirements of ISO 10993, and were found to be non-irritating, non-sensitizing, and non-cytotoxic. PolyMem dressings are not made with natural rubber latex as identified on our packaging and IFU.

WORKERS

PolyMem dressings do not pose a physical hazard or health risk to health care employees, per normal standards of health and safety. Disposal of used dressings should follow standard guidelines for disposal of biohazardous waste. Please consult the instructions for use (IFU) included in each box of PolyMem products for information regarding composition and safe use practices. If you have any questions, please contact your sales or customer service representative.

CA Prop 65

Ferris complies with the requirements placed upon manufacturers for Prop 65 Compliance. No disclosure notice is required about PolyMem products, with the exception of PolyMem Silicone Border dressings. See the separate document regarding the requirement of Prop 65 and Silicone Border dressings.
